ELBA, ALA. FEB. 7, 1911.

The state prohibition bill has
not yet passed. It is
probable that we will know this
week whether or not liquor can
legally be sold in Alabama.

The Southern Commercial Congress
will meet in Atlanta about
the first of March. The meeting
is called for the purpose of formu-
lating plans to bring new indus-
tries and new people south.

Farmers in this section are very
busy men just now. A good deal
of new land is being cleared up,
houses built, and other prepara-
tions made for a big crop.

W. S. Harland, the rich mil-
lowner of Hartford, who was con-
victed of poisoning, was sent to
the penitentiary at Atlanta last
week to serve out a sentence of
eighteen months. Several of his
associates went behind the bars at
the same time. It is well.

The New York World says the
people of New England are more
interested in the South than ever
before, and that thousands of
them are coming to this section
every year to buy lands and settle.
The volume of new settlers is con-
stantly growing larger, and the
result will be a new and richer
South within a few years.

The coming of the cotton weevil
is just now receiving much atten-
tion from the press, and many
predictions of the great damage
the weevil will do are published.
We do not think this little insect
is to ruin the cotton industry; by
the time it has been with us a
few years it is very probable we
will learn how to control the
pest, and to make cotton as pro-
fitable as ever. We notice that
very few counties in the weevil
infested states have abandoned
the cultivation of cotton, and the
yield, as a whole, seems to be
almost as great as before the ap-
pearance of the weevil. It is
well enough to "prepare for war
in time of peace" but there is no
need to weep until the corpses are
brought in.

A Beautiful Woman
Must have a beautiful skin. Dr.
Bell's Antiseptic Salve removes
pimples, blackheads, chaps, and
roughness, leaving the skin
smooth. Try it on your guarantee.

A bill to give to each county in
the state \$2,000 per annum for
good roads has been introduced in
the legislature. This amount to
go only to counties that give a
like amount for that purpose. By
the same bill a "State Highway
Commission" is created and \$20,-
000 appropriated for its use. This
is, of course, an unnecessary ex-
pense, but it is probable that we
will have to take the "fly" or go
without the "ointment."

Some man has invented a pea-
nut picker. It is said that the
machine picks the nuts from the
vines and leaves them in clean
marketable condition. Two men
with horse power or a small in-
gine can pick several hundred
bushels of peanuts in a day. It
is a great thing for the farmers
of this section as the peanut is
sure to become a paying crop here.
The trouble of picking the nuts
from the vines is what has kept
the production at such a low fig-
ure heretofore.

The idea of compulsory educa-
tion will not go down with the
people of Alabama yet. We can-
not see how any one can seri-
ously advocate such a law under
present conditions. The state
does not provide enough schools
for the children that want to go.
Until we can do this, and furnish
comfortable school houses, suit-
able furniture, free books, etc., it
is foolish to talk about hiring
bailiffs to hunt up more children.

A few minutes delay in treating
some cases of croup, even the
length of time it takes to go for a
doctor often proves dangerous.
The safest way is to keep Cham-
berlain's Cough Remedy in the
house, and at the first indication
of croup give the child a dose.
Pleasant to take and always cures

ing news that the "rebels" are

sult. These tablets invigorate
the stomach and liver and

Revenue officers destroyed eight
still in Houston county last week
and arrested Tom Cherry, Arch
Robinson and Henry Booker.
They were all carried to Dothan
for trial. The officers are hunt-
ing for other moon shiners in this
section, and prospects seem fair
for this kind of business just now.

A Cough
Is a dangerous signal and should
not be neglected. Take Dr. Bell's
Pin-Tar-Honey at once. It cures
inflammation, stops the cough
and heals the membranes.

PARCELS POST BILL.

Southern Retailers Plan Vigorous
Campaign Opposition.

A convention of retail merchants
from all the southern states will
be held in Nashville February 28, March
1, 2 and 3 for the purpose primarily
of protesting against the passage of the
parcels post bill now before congress.

The call for the convention has been
signed by over 3,000 merchants
throughout the south and indications
are that it will be very largely at-
tended. Robert L. Burch, of Nashville,
editor of The Merchant and Manufac-
turer, is at the head of the movement.

The program committee is in corre-
spondence with a number of prominent
men, governors, congressmen, United
States senators and business men, par-
ticularly well informed as to the mat-
ter in hand, with a view of having
them address the convention.

The real purpose is to get the opposi-
tion to the bill in concrete form for pre-
sentation to the congressional com-
mittee having it in charge.

MRS. NATION ILL.

Famous Saloon Wrecker Reported to
Be Near Death.

Mrs. Carrie Nelson, who became
known throughout the country several
years ago by reason of her fondness
for smashing saloons, is now said to
be rapidly sinking, and her death is
said to be imminent.

Mrs. Nation suffered a nervous col-
lapse a fortnight ago and recently was
taken to a private sanitarium near
Leavenworth, Kan.

STRANGE FATALITY.

Widow of Col. Carlisle, of Kentucky.

Meats Tragic End.
A hot rock used in warming the bed
set fire to her garments and caused
the death of Mrs. Mary Carlisle at
Lebanon, Ky. She was the widow of
Col. John B. Carlisle, who was for
many years a prominent lawyer of
that city. When the aged woman was
awakened, the bed clothing had caught
fire and she sustained fatal burns be-
fore her cries brought assistance.

ing blind tiger" at Enterprise last
week. It was a negro. It is said
that Mr. Stewart caught him in
the act of making a sale and then
went for him. Afterwards he
searched the negro's premises and
found a considerable quantity of
whiskey.

Florida's senatorial election is
still in doubt. The race was very
close, but returns give Blount,
Pensacola, a majority of about
1000. However the returns from
several counties will be contested
and it now seems certain that the
courts will be called on to decide
whether Blount or Bryan won.

There is some talk of the Baptist
Church postponing the build-
ing of an addition to their old
church and instead building a new
brick church later on. The Baptist
Church is very strong at Elba
and should they so determine
can build a fine church.
